

BRAINERD DAILY DISPATCH.

VOLUME 6, NO. 142.

BRAINERD, MINN., SATURDAY, NOVEMBER 17, 1906.

PRICE TWO CENTS

LITTLE LOSS OF LIFE

X PERSONS SO FAR DROWNED
IN FLOODS IN THE PUGET
SOUND REGION.

IMMENSE AREA UNDER WATER

VERFLOW FROM MANY RIVERS
INUNDATES TWO HUNDRED
SQUARE MILES.

Seattle, Wash., Nov. 17.—A heavy rainfall Wednesday, 2.48 inches in four hours, and a chinook wind which melted recent fresh snows in the Cascade mountains, coming simultaneously, are the causes of the most disastrous floods in the history of the Puget sound region. The valleys of the White, Duwamish, Cedar, Green, Buck, Black and Payallup rivers are under water, flooding 200 square miles of territory. This includes practically every acre of lowland lying back of the eastern shores of the sound and extending from Seattle to Tacoma. The plant at Electra is submerged, and Seattle and Tacoma are dependent on their local auxiliary stations for power to move street cars and provide electric lights. The local plants, however, have fuel enough to operate several days.

Six persons have been drowned. High tides, combined with the floods, have converted all the river deltas, which are great tracts of fer-

tile farms, into muddy torrents, hundreds of farmhouses and villages are submerged to the second stories and many persons are homeless. The loss to the Northern Pacific alone will reach \$150,000 and the total loss on the district will run to \$500,000.

MAILS CARRIED BY STEAMER.

No Trains Running Between Seattle and Vancouver.

Vancouver, B. C., Nov. 17.—No trains from Seattle or points south of there left Vancouver during the day on account of the big storms and floods in Washington and Oregon. The mails are being carried by steamer. The heavy floods in the northwestern part of Washington are so bad that the Northern Pacific line is out of commission between Sumas and Seattle. The Great Northern line is completely flooded at Seattle.

LIPTON SAILS FOR ENGLAND.

Decides to Challenge Again for the America's Cup.

New York, Nov. 17.—After bidding farewell to many of his friends at the Waldorf Astoria Sir Thomas Lipton boarded the steamer Carmania and sailed for England. Before Sir Thomas went aboard the steamer he said that he had practically made up his mind to issue another challenge for the America's cup.

"I came here this time," Sir Thomas said, "with one purpose in view—that was to pave the way, if possible, for another challenge to the New York Yacht club for the cup and I shall go home with the feeling that my visit has not been a failure. There is the greatest probability that I shall challenge for the cup next year, the race to take place in 1908. The challenge will be under the new rules of measurement of the New York Yacht club. 'Fife' will design the challenger. Still I may decide to build two boats and if I do Mylne will plan the second."

SLUMP IN OIL STOCK.

Standard Quotations Lose Seventy-one Points in a Week.

New York, Nov. 17.—Standard Oil stock declined further on the curb stock market during the day, selling down to 52½, or 25 points below Thursday night's closing price, 40 points from Thursday's high and 71 points since Monday. Dealings in the stock totalled more than 500 shares.

The stock sold at \$591 a share on Nov. 1, at \$700 last January and at \$840 in 1902.

TONS OF SAND AND ROCK FALL.

Pennsylvania Railroad Tunnel Under East River Blocked.

New York, Nov. 17.—Following the explosion of a blast in the Manhattan end of the Pennsylvania railroad's East river tunnel tons of sand and rock tumbled down, filling an excavation which had been hastily vacated by a gang of workmen. Lee Stribling, "headling boss," had missed his footing and, falling to the bottom of the pit, was buried in the mass.

RUMOR AGAIN BOBS UP.

Reiterated That President Castro of Venezuela is Dead.

London, Nov. 17.—In a dispatch from Mexico City the correspondent of the Tribune says a prominent Venezuelan refugee there has received cable advices which declare authentically that President Castro of Venezuela is dead and that the Venezuelan government is concealing the fact in order to prevent a revolution. The Tribune prints this dispatch "with all reserve."

SALOON HOLDUP FAILS.

Two Men Killed and Two Others Fatally Injured.

San Francisco, Nov. 17.—Two men are dead, two others dying and another seriously injured as the result of a pistol battle in an attempted hold-up of a saloon by two masked robbers.

Shortly before midnight two men with handkerchiefs over their faces and revolvers in their hands entered the saloon of John O'Connell at Sixth and Brannon streets. All the inmates complied with the order to hold up their hands given by the masked men except George O'Connell, a retired pensioned police officer, who drew his revolver and commenced shooting at the robber nearest the Sixth street entrance.

Seeing the gun flash in O'Connell's hand, the two robbers began firing at the ex-policeman and patrons of the saloon at almost the same moment.

When the smoke of battle cleared away four men were lying on the floor of the saloon, three of them dying and the fourth seriously injured—O'Connell with two bullets in his chest, Stephen Lynch twice shot in the abdomen, Louis Delatour with his jaw torn away by a bullet and Michael Kennedy shot in the ear.

From the Sixth street door a trail of blood led across the street to the sidewalk opposite the saloon, where was found one of the robbers with the mask still on dead, with two bullets fired by O'Connell in the chest. The second robber escaped.

The dead man was identified by detectives as Frank Burke, an ex-convict.

O'Connell died soon after being taken to the hospital, where it is said that Lynch and Delatour, both laborers, cannot recover.

CLEVER WORK OF BURGLARS.

Blow Bank Safe at Henderson, Ia., and Secure \$3,000.

Des Moines, Nov. 17.—Robbers blew open the vault and safe of the Henderson Citizens' bank some time during the night, secured about \$3,000 and escaped.

So cleverly did the crooks work that no intimation of the affair came to the people until officers of the bank went to open the doors in the morning.

At least two charges of nitroglycerin had been used. The vault and safe doors both were blown from their hinges and the interior of the bank badly demolished. The crooks then stole a team of horses and drove to the little town of Hastings, where they turned the horses loose and it is believed took a train for Council Bluffs or Omaha.

The bulk of the money taken was in currency, but over \$500 was in \$20 gold pieces.

Henderson is a small town on a branch of the Burlington road.

ENDS TWO YEARS' VIGIL.

Postoffice Officials Capture Man Wanted for Cotton Failure.

Buffalo, N. Y., Nov. 17.—Francis E. Marrin, one of the principal figures in the Storey Cotton company failure in Philadelphia in 1905, was arrested here in the lobby of the Genesee hotel. Marrin disappeared from Philadelphia on March 17, 1905, when the postoffice department raided the Storey Cotton company and since then he has been in Europe. He came back to America but a few weeks ago and the vigil the postoffice authorities have kept for nearly two years has ended with his arrest.

Since 1905 he has been in Europe. He visited London, Paris, Berlin and Brussels and Amsterdam. On Marrin's person were found checkbooks of London and Paris banks. Marrin has a wife and two children in New York.

GROWS MORE INTENSE

BITTER FEELING PREVAILS BETWEEN BOTH POLITICAL PARTIES IN CUBA.

HITCH IN NEW ELECTIONS

MODERATES PREFER AMERICAN OCCUPATION TO LIBERAL GOVERNMENT.

Havana, Nov. 17.—The bitter feeling between the Moderates and the Liberals is growing more intense as a consequence of rumors that the former party is prepared to go any length to prevent new elections, the result of which, it is a foregone conclusion, would be an overwhelming Liberal victory. The Moderates are believed to prefer an indefinite American occupation and even annexation to the United States to submission to Liberal rule. The Liberals assert that the Moderates are prepared to instigate disorders in all the provinces as soon as the date of the elections is fixed, hoping by this means to compel the provisional government to abandon its intention of holding elections. Shortly after it was rumored that the government intended to hold municipal elections in December it was asserted that the Moderates would inaugurate an outbreak within two weeks. But such intentions are vehemently denied by the Moderate leaders, who, however, are frankly opposed to the election project and who advocate the continued retention of American troops in the hope that the delay will bring about dissensions in the Liberal ranks and the consequent extinction of the present Liberal preponderance.

Fears of an outbreak are not seriously considered by the provisional government. The rural guard has been reinforced and redistributed, in accordance with previous plans, to more than 300 posts throughout the island and it is believed these men will be able to deal promptly and decisively with the first symptoms of disorder.

CUBAN CASH IS MISSING.

Discovery of \$60,000 Shortage in Treasury Excites Officials.

Havana, Nov. 17.—For several weeks Ernesto Fontz Sterling, secretary of the treasury in Palma's administration, has been in daily consultation with subofficials of that department, who are said to have reached a state bordering on panic, because they cannot account for \$60,000 alleged to be missing from the department, because of loose methods during the recent revolution. A man holding a high position in that department said:

"Vouchers have been made to cover all the war expenses, but after utilizing every available excuse there is still a shortage of \$60,000 for which we cannot possibly find an excuse for making vouchers."

The official intimated that vouchers were manufactured to order for even a greater amount than the alleged shortage.

MEMORY OF IOWA SOLDIERS.

Governor Cummins Dedicates Monument at Andersonville, Ga.

Andersonville, Ga., Nov. 17.—The monument erected to the memory of Iowa soldiers in the Andersonville National cemetery was dedicated during the day by Governor Albert B. Cummins of Iowa, assisted by his official staff, the Iowa monument commission and nearly 150 former Andersonville prisoners. The monument was unveiled by Mrs. Cummins. The acceptance was by Governor Cummins, who formally presented it to the United States.

RAILROADS REFUSE DEMAND.

Independent Oil Dealers Ask Big Reduction in Rates.

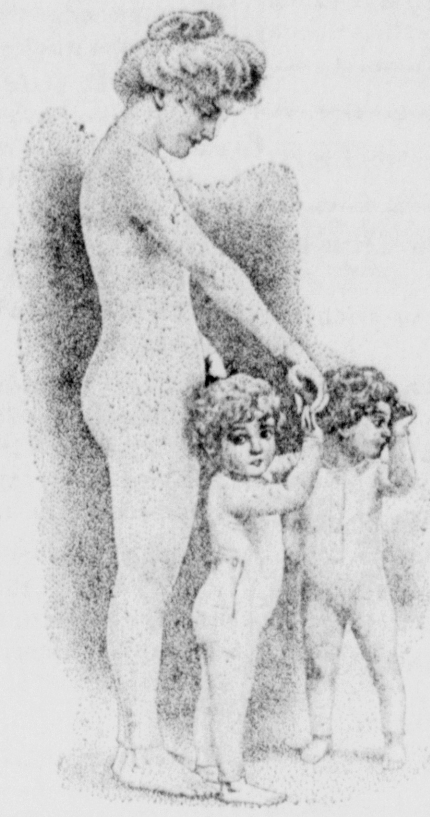

Chicago, Nov. 17.—A demand by the independent oil dealers of the country that the Eastern railroads make a reduction of nearly 40 per cent in the rates of petroleum and its products was refused here at a meeting of the Central Freight association. The oil men declare they will take their case before the interstate commerce commission. The railroads offered to make a reduction of 10 per cent, but this was refused.

OKLAHOMA BANK ROBBED.

Safe Blown With Nitroglycerin and \$1,000 Taken.

Maree, Okla., Nov. 17.—The safe in the State bank of Maree, Pawnee county, was blown open by nitroglycerin at an early hour during the morning and the robbers escaped with \$1,000.

Made Happy for Life

Great happiness came to the home of S. C. Blair, school superintendent, at St. Albans, Vt., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles affected a complete cure." Quick, sure cure for nervous complaints, general debility, female weakness, impoverished blood and malaria. Guaranteed at H. P. Dunn & Co's. drug store. Price 50c.

PERRY BELMONT WILL FIGHT.

Insists on Remaining on New York Democratic Committee.

New York, Nov. 17.—In a letter to Chairman Connors Perry Belmont says that he will insist upon being recognized as the member of the state Democratic committee from the First senatorial district. Mr. Belmont, who has been a state committeeman for twelve years, says that he was recently informed that a protest would be made against his remaining upon the committee on the ground that he had not supported the Democratic candidate at the recent election. To this Mr. Belmont replied that he would not be influenced by such a protest as he had never voted for a Republican candidate.

The Endless Procession.

A myriad of men are born. They labor and sweat and struggle for bread; they squabble and scold and fight; they scramble for little mean advantages over each other; age creeps upon them; infirmities follow; shames and humiliations bring down their prides and their vanities; those they love are taken from them, and the joy of life is turned to aching grief. The burden of pain, care, misery, grows heavier year by year; at length ambition is dead, pride is dead; vanity is dead; longing for release is in their place. It comes at last—the only unpoisoned gift earth ever had for them—and they vanish from a world where they were of no consequence; where they achieved nothing; where they were a mistake and a failure and a foolishness. There they have left no sign that they have existed—a world which will lament them a day and forget them forever. Then another myriad takes their place, and copies all they did, and goes along the same profitless road, and vanishes as they vanished—to make room for another, and another, and a million other myriads, to follow the same arid path through the same desert and accomplish what the first myriad and all the myriads that came after it accomplished—nothing.—From Mark Twain's Autobiography in North American Review.

Origin of the Balloon.

The word balloon means "a large ball." To Montgolfier of Annonay, France, the invention of the balloon is credited. It is said that he was led to turn his attention to balloon making from the following incident: A French laundress, wishing to dry a petticoat quickly, placed it on a basket work frame over a stove. To prevent the heat from escaping by the opening at the top of the petticoat she drew the belt strings closely together and tied them. Gradually the garment dried and became lighter, and as the stove continued to give out heat and rarefy the air concentrated under the basket work frame the petticoat began to move and finally rose in the air. This so astonished the laundress that she ran to her neighbors and asked them to come and witness the strange sight. Montgolfier was among those that came in. The petticoat suspended in midair suggested greater things to him, and he returned home with "something to think about." He at once began studying works on different kinds of atmosphere, and the invention of the balloon was the result.

No Excuses Accepted.

French officials are said to be particularly strict in their discipline of tourists. A lately returned traveler tells several more or less apocryphal stories to illustrate the state of affairs. An American lost his footing, slipped down an embankment and fell into a small, shallow pond. As he scrambled, dripping, up the embankment to the footpath he was confronted by an arm of the law.

"Your name? Your address?" demanded this uncompromising person, notebook in hand.

"But I fell," began the astonished American. "I only"—

The man waved his arm. "It is forbidden to bathe in this lake," he said firmly. "I am not here to listen to extenuating circumstances."

A Quotation.

A correspondent wrote to a newspaper to ask the author of this couplet: How much the fool who has been sent to Rome Excels the fool who has been kept at home!

He had barely written when he answered his own query, having found the source of the lines and how he had misquoted them. They are from Cowper's "Progress of Error" and read:

How much a dunce that hath been sent to roam Excels a dunce that hath been kept at home!

We are not sure but that, as is frequently the case with misquotations, the popular version is better than the poet's.—New York Tribune.

Brains of Great Men.

Brains of great men vary very much. It is found that men of encyclopedic mind have large and heavy brains—Gladstone had to wear a very big hat—with an enormous bed of gray matter and numerous convolutions. On the other hand, men whose genius is concentrated upon one line of thought are of small brain and, consequently have small heads. Newton, Byron and Cromwell were in this class.—Kansas City Journal.

Latchkey as a Source of Trouble.

Ever since some mechanically inclined person, with an almost diabolical instinct for making mischief, invented a form of spring lock which can be opened on the inside by a knob and on the outside only by a key there has been trouble. The latchkey from the first has been a domestic storm center. It has divided family circles and even broken up homes.—London Telegraph.

The Best.

There is a legend, says an English writer, to the effect that after Lord Stanley came into the house of peers a lady somewhat indiscreetly asked Lord Brougham at a dinner party who was the best speaker in the house of lords and that Lord Brougham promptly and emphatically answered, "Lord Stanley, madam, is the second best."

Hasty Conclusion.

Tommy paused a moment in the work of demolition. "This is angel cake, all right," he said. "How do you know?" asked Johnny. "I've found a feather in it."—Chicago Tribune.

There are about 185 inhabited British Isles, of which Scotland claims over 100.

A Year of Blood

The year 1903 will long be remembered in the home of P. N. Tackett, of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured. Guaranteed for sore lungs, coughs and colds, at H. P. Dunn & Co's. drug store. Price 50c and \$1. Trial bottle free.

LOUIS KLING DEAD

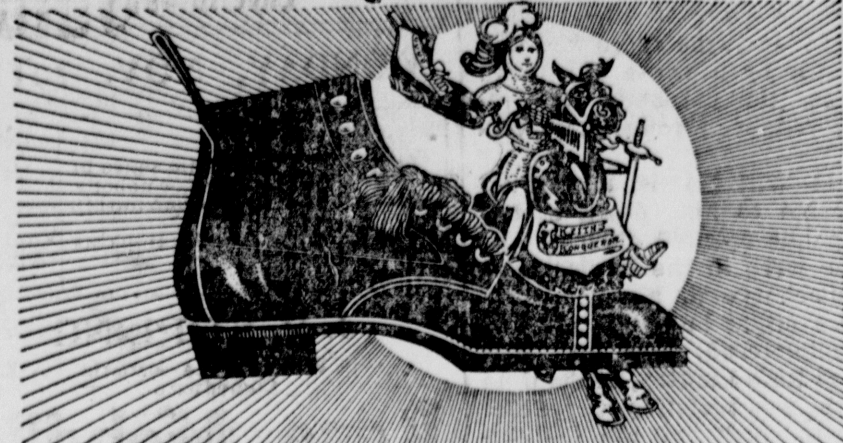

Man Shot at Cross Lake Died From His Wounds Yesterday—Will be Brought Here Tomorrow

Louis Kling, who was shot by Wm. Buchette, near Cross Lake, Wednesday while out hunting, died shortly after four o'clock yesterday afternoon. Chris Kling, his brother, and Geo. Wilmott came down today and got a coffin, Wilmott returning to Jenkins with the coffin while Kling drove through with a team to bring the family down tomorrow. The body will be brought to the home of Mrs. Jas. Alexander, of Southeast Brainerd tomorrow by team and an inquest will be held Monday. The body will probably be taken to his old home in Mankato. It is said that before Kling's death he requested his wife not to prosecute Buchette for the shooting.

WILL GET THE MONEY

Attempt of Y. M. C. A. Association to Raise \$1500 Will Surely be Successful

PRESIDENT ELLIOT GIVES \$500

And all Local Committees are Enthused and Success is in The Air

That the Y. M. C. A. association will be successful in raising \$1500 on Monday to repair the building and put it in first class shape is a foregone conclusion, as all interested locally are filled with enthusiasm and are working like beavers, and as a further stimulus a phone message was received this morning from St. Paul giving the good news that President Elliot, of the N. P. had just given his personal check for \$500 for the cause. The effect of this news has increased the enthusiasm of the local workers and they now feel they cannot fail.

Monday will be the great day. Men from almost every walk of life will do their utmost to raise the \$1,500 during the one day altho every man will be seen if it is not possible to approach him Monday.

The committees met last night and completed arrangements. Solicitors were appointed for the shops and solicitors for the city. Every one of them will be out for money and the canvas committee believe that a public spirited public will respond readily.

Three secretaries from Duluth and two from St. Paul will be present to assist in the canvass.

A large indicator will be erected on the Y. M. C. A. corner that all may know how the work is progressing.

The committee have decided to give a membership with every \$5.00 or more contributed and have an easy payment proposition for young men not able to pay all readily. "Push" is the word for Monday.

Saturday is bargain day at Bane's.

Sis Hopkins

Miss Rose Melville, who is making her eighth consecutive tour in "Sis Hopkins" has been booked for an engagement at the opera house, Monday, Nov. 19th. "Sis Hopkins" may very properly be said to be the most popular play which has been staged in twenty years. Each season sees an increase in interest in the fortunes of the simple and oddly dressed country girl of Posey county, Indiana; the girl with the funny pig-tailed hair, the gingham pinafore and the "snakebite" dance; the girl with the gentle, abashed manner and keen wit and homely philosophic form of speech. Miss Melville, since she originated the character eight years ago, has played in every city in the United States and in nearly all the larger cities of Canada. The company supporting her this season is the best she has ever had and the production has been entirely redressed by J. R. Striling, who is directing the tour. This season Chadish, the undertaker's assistant, has a new lot of tombstone epitaphs.

THEY PROTEST AGAINST DITCH

Large Number of Freeholders in To Hearing on Judicial Ditch Today

CLAIM COST EXCEEDS BENEFITS

Two Protests Filed and Hearing Is Postponed Until December 4th at 2 P. M.

The hearing on the judicial ditch in Crow Wing and Aitkin counties came up today. There were two protests filed and as there were a large number of witnesses present to be heard and as the hearing could not be completed today and Judge McClenahan had to go to Walker Monday to hold court the matter was not taken up, but was adjourned to December 4th at 2 p. m.

Attorney Hallam, of Aitkin, appeared in behalf of some of the protestants.

The main remonstrance is signed by Fred Eimer, John Doltzer, Wm. Meyer, A. Bielenberg, Fred Dangers and Christ Garkmoen. It sets forth five causes of protest, as follows:

First—That the cost of the same will be greatly in excess of the benefits to be derived therefrom.

Second—That the character of the soil in which said ditch is proposed to be constructed, consists largely of quicksand, and that therefore said ditch, if constructed, will not be a lasting improvement.

Third—That the natural course of the flow of water is toward the north-east of said ditch and that very little of the lands on the north side of the ditch can be benefitted thereby.

Fourth—That in the event of the construction, the assessments on the subscribers and land owners, in many cases exceed the value of the lands assessed.

Fifth—That the taxes are already burdensome to most of the settlers, and the construction of the proposed ditch would make it unbearable.

A remonstrance was also filed against the proposition to make a township road along the side of the ditch and tax a portion of the cost to the town of Rabbit Lake. This protest is signed by 26 resident freeholders of the town of Rabbit Lake and is based on the ground that the road would be of little benefit and on the further ground that the town was recently taxed \$1,200 on a similar scheme and it would be more than the town could stand.

The report of the viewers, which is identical with that of the engineer, shows an estimated benefit of \$15,055, and the cost at \$2,853.78. The engineer's report shows 66,390 cubic yards of dirt to be moved at an estimated cost of 14 cents per yard, with an additional expense for survey and inspection of \$1.50 per 100 feet. There will also have to be three bridges constructed. The benefits estimated, vary from \$1 to \$6 per acre. On the basis of the approximate benefits of \$15,000 with a total cost of about \$10,000, it would make an assessment of 66 cents to \$4 on each acre. With a benefit estimated at \$240 on a "forty" as is often shown it will cost the owner \$160. This is certainly a hardship to many a settler.

AMENDMENTS WIN

Official Returns Give the Three Measures Safe Majorities in the State

St. Paul, Nov. 15.—The three big counties have been heard from, and the wideopen tax amendment is running stronger than ever. Each of the three gave the amendment a majority, but in Hennepin it ran close, having just 22,625 out of a total of 44,812.

Ramsey did much better, giving the amendment 15,778 out of a total of 26,581 votes, and St. Louis also made an unexpectedly good showing, with 7,190 votes for the amendment out of a total of 12,097. Both the other amendments got a larger vote in St. Louis.

Martin county gives the tax amendment 1,599 votes out of 2,925, and the total for fifty counties heard from is now 111,751 votes for the amendment, out of a total in these counties of 204,318.

A majority of this vote would be 102,160, so that in the fifty counties the amendment now leads by 9,291, votes and seems certain of passage. The good roads amendment is somewhat behind and will have a close shave, but the peddling amendment has carried heavily.

ANOTHER REPORTED KILLED

Word Brought in Roundabout Way That Man was Shot Near Leavitt Lake By Deer Hunters

S. H. Parker and W. H. Onstine returned last night from a hunting trip in the north part of the country. They stopped at Cod Kimball's on their way down and while there learned that a party of movers reported to Mr. Kimball that a man had been shot near Leavitt lake, about ten miles north of Cross lake, by hunters who mistook him for a deer. It is thought possible that they may have got the killing of Louis Kling confused in some way, or it may have been another accident. Messrs. Parker and Onstine report no luck at all in deer hunting.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

Lower Tariff in Force

The new merchandise rate promulgated by the railway and warehouse commission some months ago went into effect today. Most of the roads have filed new tariffs in accordance and those remaining are expected to have them within the next two days.

The rate ordered by the commission contemplated a cut of from 20 to 24 per cent in existing rates, but some of the roads have done still better. A straight cut of 5 cents per hundred is made by the St. Paul on first class merchandise between St. Paul and Winona. Between the twin cities and Owatonna the slash is as much as 27 per cent.

In preparing the new schedules the long distance tariffs have been made to conform and points outside the state benefit in consequence. Chicago freight rates are also affected.

New Bridge at Carlton

A new steel bridge is being built across the St. Louis river for the Northern Pacific road at Carlton, replacing the old bridge built in 1888, when the line was owned by the St. Paul & Duluth. The old bridge is not considered strong enough to support the heavy equipment of the present day. Frankman Bros. & Morris, of St. Paul have the contract. The structure is 150 feet long and fifty feet high.

Passes to Disappear

Chicago, Nov. 16.—Sentiments expressed at the meeting of the Western pass committee indicate that the railway pass will vanish entirely from the West on Jan. 1. The new rate law prohibits its issuance for interstate travel after that date, to anybody except railway officials and employees of common carriers, and the Western railroads manifest a strong disposition to discontinue issuing it for state business. The committee will meet again Nov. 22, when the question will be settled.

In the discussions at the meeting it was made clear that the roads would probably continue to give state passes, except for the apprehension that the recipients would use them for interstate travel, and thereby subject both giver and recipient to prosecution and imprisonment under the interstate commerce act.

Congestion of Terminals

Duluth Herald: The Northern Pacific terminals in Duluth are proving inadequate to meet the heavy demands being made upon them at present, and a serious congestion is being narrowly averted. Twice during the fall the tracks have been blocked with freight trains as far as West Duluth, while cars were being switched in the yards, and this morning the passenger train from St. Paul, due at 8:30 a. m., was delayed by a blockage of cars so that it did not arrive at the Union depot until 8:40 a. m.

KNOTTY POINT SETTLED.

Utah Supreme Court Decides Important Case.

Salt Lake City, Nov. 17.—If a Utah man dies after disposing of his estate without the consent of his wife her remedy is not to sue the executor for her share of the purchase price, but to bring action to recover her dower right in the property. Such is the decision handed down in the Utah supreme court in the case of Annie Park Hilton vs. S. W. Stewart, executor. It is said to be the first decision on this knotty point. Mrs. Hilton was united by the Mormon rite of "sealing" to Dr. John R. Park when she was believed to be dying, as a girl. After her recovery she married Hilton and the "celestial marriage" was ignored until after Park's death, when her suit for a widow's interest in his estate brought a decision from the supreme court that the "sealing" was a valid marriage.

HOLDS BRIEF SESSION

AMERICAN FEDERATION OF LA-

BOR WAITING FOR COMMIT-

TEES TO REPORT.

POLITICS TO BE DISCUSSED

CONVENTION IS ANXIOUS TO GO

ON RECORD IN REGARD TO

GOMPERS' IDEA.

Minneapolis, Nov. 17.—There was only a short session of the American Federation of Labor convention now being held in this city, adjournment being taken at 10:30 a. m. until morning in order that the various committees might be given a chance to perfect their reports, which must now be perfected before more business can be transacted. That the convention is anxious to go on record in regard to President Gompers' idea of entering politics was evidenced by an effort of Gerry Brown of Brocton, Mass., to have the convention resolve itself into a committee of the whole for the sole purpose of discussing the political question.

"The papers of the country," said Mr. Brown, "are slurring our honored president because of his course in the recent campaign and it is high time that the delegates should go on record as either favoring or disapproving that course."

Vice President James Duncan said politics ought never to be made anything but an annex to the American Federation of Labor. A motion for adjournment, which carried, cut short the political discussion, which will be resumed with vigor later on.

In the evening a labor mass meeting was held in St. Paul, speeches being made by Samuel Gompers, Frank Morrison, James O'Connell, John Gee, English fraternal delegate, and Frank K. Foster.

INCREASE TEN PER CENT.

Railroads of Entire Country May Raise Wages.

Chicago, Nov. 17.—The railroads of the entire country stand ready to accept the standard of wages set by the Pennsylvania and to grant their employees an increase of 10 per cent in lieu of all other demands. The "million," which the railroads are willing to cut and to distribute among more than 1,296,000 employees, would aggregate between \$81,000,000 and \$82,000,000 annually. This sum the roads are ready to give the large army of employees provided the latter will accept it and cease for the time being any further demands for increases in all branches of the railway service.

Several railway magnates have already taken action in the matter and have decided to grant the increase if the matter can be arranged amicably with their employees.

The magnitude of the concession to labor is understood when it is stated that the increase will amount to a dividend of nearly 1.4 per cent on all the capital stock of the entire railroad systems of the country and to nearly 37 per cent of the amount of dividends declared and paid on that stock for the year 1905.

There has not been concerted action on the part of the railroads, but the question of increase in wages has been the subject of discussion in many meetings which have been held among the Western presidents and executive officials at Chicago and among the Eastern men at New York.

ALTON RAISES WAGES.

Grants Thirteen Per Cent Increase to Switchmen.

Chicago, Nov. 17.—The movement toward higher wages which has been in progress throughout the country for several weeks received another impetus during the day when the Chicago and Alton railroad announced a 13 per cent increase in pay—retroactive to Nov. 1—for all its switch yard employees.

The advance applies to every yard employee of the company and represents a horizontal increase in pay. Aside from these 100,000 other employees of Western roads are negotiating for higher wages and it is said the directors are considering a general advance.

RAILWAY EMPLOYEES CONFER.

Will Ask Higher Pay From Lines West of Chicago.

Kansas City, Nov. 17.—A demand for an increase in wages for the 35,000 employees of the forty-five railroads west of Chicago will be recommended by the ninety representatives of these employees who have been in conference in this city for the past three days. The proceedings of the conference have been secret and no statement could be secured from the conferees except that a raise in wages would be recommended.

MAGOON WILL NOT RESIGN.

Denies That He Intended Quitting Cuban Post.

Havana, Nov. 17.—Governor Magoon denied the rumor that he intended to resign his post in Cuba. He said:

"I have never filled a post which pleased me more than this one and I have never been so deeply interested as in the work in which I am now engaged."

ALLEGES DISCRIMINATION.

Omaha Grain Exchange Passes Railway Resolutions.

Omaha, Nov. 17.—The Omaha Grain Exchange announces in a formal set of resolutions the belief that the Omaha grain market is discriminated against by the Milwaukee, the Northwestern, the Omaha, the Great Northern, the Burlington, the Union Pacific, the St. Joseph and Grand Island and the Missouri Pacific railways in favor of Chicago, Kansas City and Minneapolis in the matter of switching, reconsignment and other charges. The resolutions further declare that "it is the policy of the exchange to attack these discriminating rates and exorbitant and arbitrary charges at once; that such action be taken in every direction that counsel may advise is open to us, and that we carry on the conflict until we have obtained an absolute parity of rates with the cities named."

WEEKLY REVIEW OF TRADE.

Current Business Good and Prospects Never Brighter.

New York, Nov. 17.—R. G. Dun & Co.'s Weekly Review of Trade says:

Trade expands under the stimulating influence of colder weather and mercantile collections improved although rates for money continue high. Traveling men are sending large orders to leading distributing points, but movements of merchandise is still retarded by inadequate transporting facilities. Seasonable lines of wearing apparel and holiday goods attract most attention, while staple articles of every description are in steady demand. Current business is good and prospects for the future were never brighter. Labor disputes reached amicable settlement in most cases, wages being advanced in numerous transporting and manufacturing industries. Prospects in the iron and steel industry are bright beyond precedent.

NOT PREPARING FOR STRIKE.

President Underwood of the Erie Makes Statement.

New York, Nov. 17.—President Underwood of the Erie railroad, who returned during the day from Chicago, made the following statement:

"We are not preparing for a strike and there is no reason why there should be a strike. The firemen have always been justly treated and there is no reason why they will not be treated as well in the future."

Hearst's Campaign Expenses.

Albany, N. Y., Nov. 17.—William Randolph Hearst, Democratic and Independence league candidate for governor, has certified to the secretary of state that he had spent \$256,370 in promoting his canvass.

REMARKABLE VERDICT.

Coroner's Jury Commends Citizens for Killing Outlaw.

Asheville, N. C., Nov. 17.—At the inquest over the body of Will Harris, alias Rufe Lindsay, the negro who was shot to death by a posse of officers and citizens, the coroner's jury returned the following remarkable verdict:

"The said Will Harris, alias Rufe Lindsay, came to his death at the hands of public spirited citizens who at the time were in the fearless and unselfish discharge of a public duty that the law might be vindicated and justice administered; that said Will Harris, alias Rufe Lindsay, at the time of his death, was resisting arrest and attempting to shoot and kill the citizens above referred to, consisting of the posse who were attempting under due authority of the law to effect the capture of the said Will Harris."

"That the citizens above referred to constituted the posse aforesaid as well as others who participated in the search and spontaneous efforts to bring to justice this incarnate fiend and savage desperado are entitled to the commendation and thanks of the whole community."

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75¢. Take Hall's Family Pills for constipation.

BEGS TO BE HANGED.

Farmer Changes Plea to Guilty and Is Given Life Sentence.

Preston, Minn., Nov. 17.—"But I am guilty and all ready to take what I deserve," said Celestian St. Antoine in response to his attorney's advice, when by his own request he was arraigned in court for the second time on a charge of wife murder. Upon his assuring the court that he desired to change his plea to guilty he was given a life sentence and the sensational case was ended, much to the disappointment of the crowd. While being taken to the jail St. Antoine complained bitterly because he was not to be hanged and censured the judge for neglect of duty in not imposing the death sentence.
